Dear Mr. Zadikian:

Enclosed is a copy of the Notice of Missing Parts – Filing Date Granted in connection with the above-identified patent application. Also enclosed for signature and filing with the U.S. Patent and Trademark Office is the following document:

➤ **Declaration for Patent Application** – must be signed by and dated by each inventor. Please confirm and/or fill in all personal information of each inventor, including citizenship.

The inventors' signatures on the declaration certify that they have reviewed and understood the specification including the claims. Failure to read and understand the specification, including the claims, before signing the declaration may jeopardize the application as well as any patent or patents, which issue from the application.

A copy of the application as filed is enclosed. If any errors are found as you review the application, claims, and drawings, please make a note of them. We cannot make changes which introduce new matter in the specification without filing a continuation-in-part application, but we can correct by amendment any typographical or grammatical errors.

After the document has been fully executed, please return the original signed and dated document to me in the enclosed Airborne Express package. This document must be filed with the U.S. Patent and Trademark Office by June 5, 2002, to avoid payment of extension fees.

Please call if you have any questions.

I need to clarify, because the papers are due to be filed today, Michael's response to your trying to obtain his signatures on the formal documents that we'll be filing in response to the Notice of Missing Parts in the given case. My notes indicate that we sent copies to his last know address, and he has, as yet, been unresponsive. Please let me know if my understanding is incorrect as soon as you can.

Look forward to seeing everyone next Thursday. Please let me know if anything changes so that I can plan accordingly.

Best regards,
Sam

A response to the Notice of Missing Parts is due today, 8/5/02, with a two month extension. We have received all the inventors signed formal documents, except for those for H. Michael Zadikian. We sent, and then re-sent, formal documents to Mr. Zadikian, but have as yet not received his signatures. In my last email on the subject, Bill had indicated that Mr. Zadikian had not been in contact with any of Ceterus' personnel. I am writing to determine if, in the interim, Mr. Zadikian has been in contact with anyone at Ceterus.

Also, given that filing after today will incur further fees, and that Mr. Zadikian has been silent on this matter, I would suggest that we proceed without Mr. Zadikian's signatures by filing the appropriate declaration (by me), indicating that such is the case. Should we receive Mr. Zadikian's signatures in the future, we can file such signed documents at that time. Please let me know if you concur.
